Contact your local municipality or Barton & Loguidice at astone@bartonandloguidice.com.

- Learn about the Plan
- Share ideas that can help reduce the risk of hazards

Contact the Office of Emergency Services for information about future public meetings

What is a Hazard Mitigation Plan?

A hazard mitigation plan identifies and evaluates risks and vulnerabilities associated with natural hazards and disasters. This process aims to reduce the loss of life and property by minimizing the impact of natural hazard events. Hazard mitigation planning leads to the development of short-term and long-term strategies to reduce and manage risk. Mitigation strategies identified in an updated hazard mitigation plan may be eligible for grant funding for implementation.

Benefits of Hazard Mitigation

Protects public safety & prevents loss of life and injury

Prevents damage to your community's unique assets

Reduces harm to existing & future development

Minimizes operational downtime & accelerates recovery

Reduces the cost of disaster response & the risk of exposure

Maintains community & strengthens social connections
